
Traditional board and batten style, long lasting finishes, low maintenance, and cost-effective installation.

ZenoClad™ Panel System

Timeless Elegance, Modern Durability

With a distinctive 20x50mm board, ZenoClad™ comes in standard 295mm and 495mm modules. Custom modules are also available.

Choose from various materials such as Colorbond®, Zinalume®, Titanium Zinc, Copper, Aluminium, Corten and the Unicote® Lux Range. This gives the designer and architect many options when looking to achieve the desired aesthetics for their roofing and wall project.

Extensively tested and certified by an independent engineer in accordance to AS1562.1-2018, ZenoClad™ is a structural, self supporting profile that brings back the classic look of board and batten wall cladding.

Panels are fixed without the need of clips, making it easy and quick to install. With options of batten or plywood fixing, and available in many finish options, this is a trustful and flexible cladding option for all the creative minds.

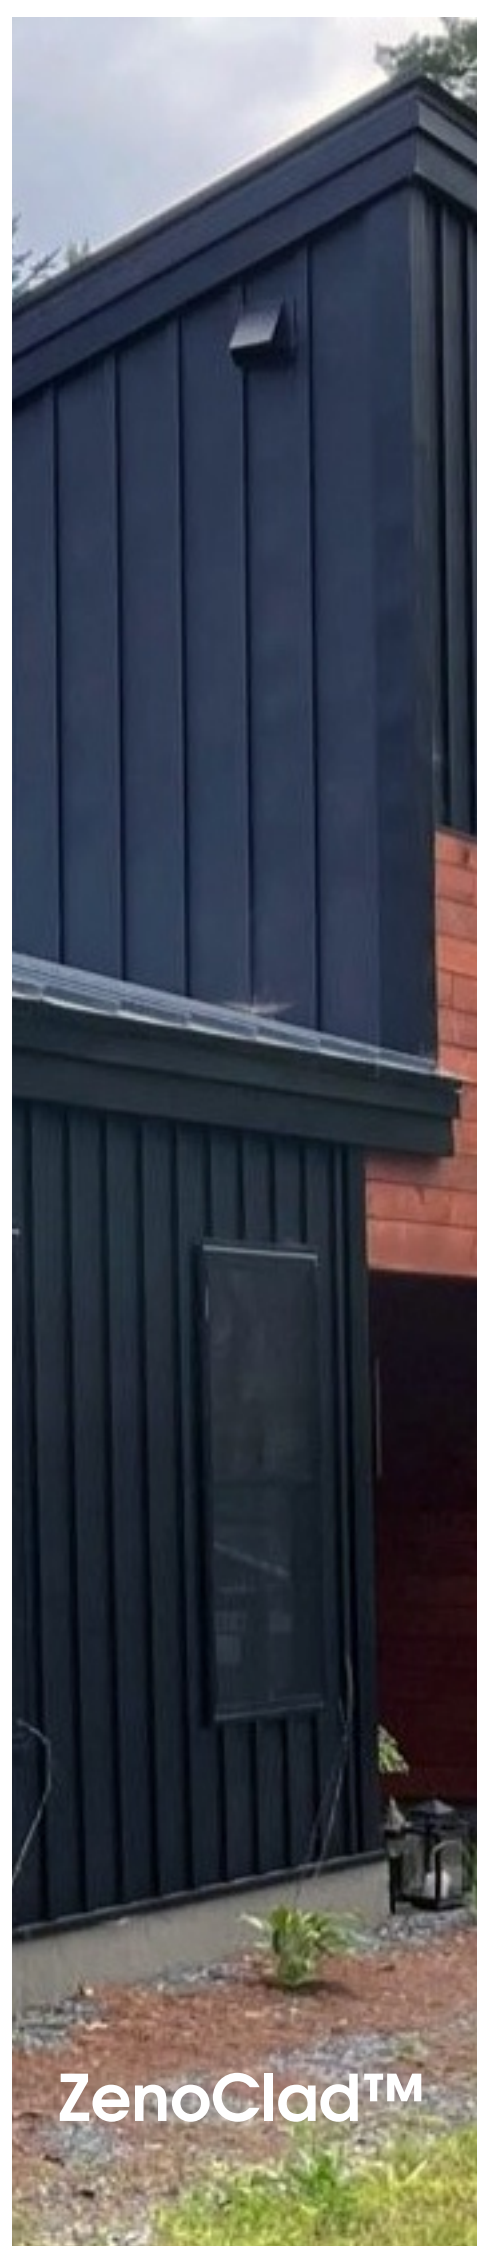

Durability

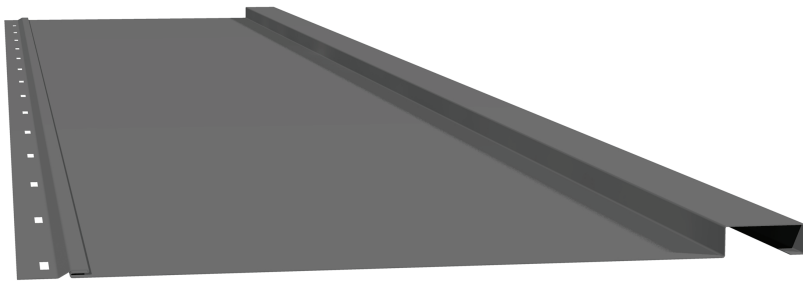

- ✓ Thermal Performance
- ✓ Extensive Range of Colours & Materials
